

Continuously improving. Adapt and innovate.

Evolving the delivery of radiology professional services is Quantum's charter. Quantum's highly skilled team of radiologists, IT and practice management consultants will work with your organization to elevate the quality and performance of your imaging services.

Powered by Helix® Radiology Performance Suite software applications, our physicians are committed to maximizing the positive impact radiology can make in healthcare and our culture drives us to continuously improve.

TIME-TESTED PROVEN PROVIDER

Quantum Imaging & Therapeutic Associates has been providing radiology services to the central Pennsylvania market for more than 90 years.

Today, Quantum is one of the largest radiology practices in the region. It seamlessly orchestrates the delivery of professional radiology services across multiple healthcare organizations by integrating numerous disparate systems into its cutting-edge enterprise radiology platform.

Quantum has continued to differentiate itself through commitment to our patients, customers, and radiologists with a focus on leveraging best-of-breed technology as a strategic asset.

Historically, when Quantum has encountered a problem that cannot be adequately addressed by existing solutions, they have developed their own unique products to best adapt its practice to contemporary demands.

INDUSTRY LEADING RADIOLOGISTS BACKED BY CUTTING-EDGE TECHNOLOGY

Onsite Diagnostic and Interventional Radiology Services

- Radiology service excellence integrated into imaging departments
- Fellowship trained sub-specialists and comprehensive interventionalists

Teleradiology Solutions

- US-based physicians with license coverage in over 40 states

Enterprise Radiology Platform

- Robust IT support with seamless delivery and implementation of state-of-the-art clinical technologies
- Novel physician productivity and practice management tools and analytics
- Radiology support staff ensures efficient interaction with ordering departments

Cutting-edge teleradiology solutions.

"Quantum has proven to be a fantastic collaborative partner to our rapidly growing practice. Quantum has met all of our timelines and together we successfully implemented a comprehensive mammography program including, screening mammograms, diagnostic mammograms, diagnostic sonograms and a new ABUS offering, with fully remote radiologist reading services. Our patients are getting their results significantly faster and our teams work together seamlessly to provide the highest quality care."

– Mike Scutella, MD, FACOG
Managing Partner, OB/GYN Associates of Erie
